*"I love stunning web and mobile applications that make a change in the world."*

## PROFESSIONAL EXPERIENCE

---

### Flexcavo GmbH (Part time, Remote)

**Berlin, Germany**

#### MERN stack developer

**2021 - 2023**

<https://www.flexcavo.de/>

- Worked on this project as a MERN stack developer with a wonderful small team.
- Focused the simple, professional, pixel-perfect UI, and flexible mobile responsiveness using SCSS and styled component.
- Optimized website performance by implementing efficient coding techniques and improving overall user experience.
- Integrated various types of libraries including Material UI, i18n for localizing lodash, Material-table, formik, Google-map-react with React.
- Also, focused on React-routing and in the main part of the controller and made all routing flexible and powerful.
- Used Bitbucket and Jira to manage the versions of production.
- Real time database management of firestore on Firebase and well-structured CRUD service.

### Meet Native (Full time, Remote)

**Miami, US**

#### Senior Full stack developer

**2020 - 2021**

<https://meetnative.com/>

- Created the authentication and authorization using .NET Core.
- Created the clean and modern layouts with a focus on user-friendly navigation and responsive design.
- Used the React hooks, React Router, and Node.js functions like JWT, Scraper, and user authorization.
- Used the Tailwind CSS as a front-end UI framework and it made the speed of development faster and more wonderful. And converted the website to the mobile app using React Native.
- Integrated the payment gateway such as Stripe, Paypal and integrated the front-end with the back-end.

### Mob Inspire, Inc (Full time, Remote)

**Bahria, Pakistan**

#### Full stack developer

**2019 - 2020**

<https://www.mobinspire.com/>

- Worked on this project as a full stack developer with a wonderful small team.
- Optimized website performance by implementing efficient coding techniques and improving overall user experience.
- Used the React redux for the React router and implemented the JSON web token as authentication.
- Real time database management of firestore on Firebase and well-structured CRUD service.

### Raise (Full time, Remote)

**Nairobi, Kenya**

#### Skilled front-end developer

**2017 - 2019**

<https://www.raise.africa/>

- Worked with a small team, just project manager, designer, front-end developer, and back end developer
- I used two way binding, templates, directives, Rxjs, testing, etc on this project.
- Managed a team of 4 front-end developers and designers
- Responsible for maintaining all company websites in a timely manner

### Redlizard Studioz Inc (Part time, Internship)

**Vancouver, Canada**

#### Front-end developer

**2017 - 2017**

<https://dev-pwa.potsave.com/>

- Implemented a lot of functionalities on this project.
- Used the middleware, controller, CSRF token, error handling, React redux, React router, etc.
- Clear understanding and fast coding made my client satisfied and good for the team.
- Worked with a small team, just project manager, front-end developer, back-end developer, designer, tester.
